Data Evaluation Questionnaire — Medical Practice / Group Operations

IEC, Inc. · IEC MSO Data Network

Purpose: buyers price operational data from counts and descriptions only — volumes, history, systems, and workflows. Please do not send any patient information or personal data of any kind. Every answer is a number, a date range, a system name, or a yes/no.

About data licensing — and what your data is worth

What "licensing your data" means. AI companies train their systems on real-world operational data — how work actually gets done: volumes, workflows, scheduling, documentation, billing patterns. They pay for the *right to use* that data. A license is not a sale: you keep full ownership, the license covers defined uses for a defined time, and the same data can be licensed to more than one buyer — so value can be earned repeatedly, not once.

Why your data has value. Buyers cannot manufacture this data — it only exists inside operating businesses like yours. Three things drive the price: volume (how many records/transactions your operation produces), history (how many years are stored in your systems), and standardization (the same workflows repeated across locations — multi-site operators on shared systems are exactly what buyers look for, because consistent data trains better models).

What it pays. The buyer program IEC is engaged with pays $100K–$2M per approved partnership, with the exact figure set by the buyer's evaluation of the counts in this questionnaire. Larger, longer-history, multi-location operations price at the top of the range. Your share of any license IEC closes on your data is 75% of the license value, paid when the buyer pays.

How the process works. (1) You answer this questionnaire — counts only. (2) You sign IEC's exclusive data licensing grant, which makes IEC your sole counterparty to buyers (no brokers, no marketplaces). (3) Buyers evaluate the counts and quote. (4) Any data that ever moves is de-identified first, inside your own systems, under expert certification — no names, no patient or customer identities. (5) You see the terms before anything is final, and nothing is licensed without the agreement you signed.

What we never ask for. This questionnaire asks for numbers, date ranges, and system names only — never patient records, customer lists, or personal information of any kind.

A. The business

1. Legal entities and practice names covered (list each):
2. Locations (city/state only) and specialties:
3. Year each location opened:
4. Total employees (full-time / part-time); number of physicians / APPs:
5. Decision-maker for a data licensing agreement — name + title:

B. Systems

6. EHR at each location (name + since when):
7. Other systems in daily use: [ ] Practice management/billing (name: ____) [ ] Microsoft 365 [ ] Google

Workspace [ ] Phone/answering (name: ____) [ ] Secure email/fax (name: ____) [ ] Accounting (name: ____) [ ] Other: ____

8. Are all locations on the same EHR? [ ] Yes [ ] No (which differ):

C. Volume & history (counts only)

9. Patient encounters per month (all locations):

10. Total encounters per year (last full year):

11. Total patient panel size (count only):

12. Years of history in the EHR: from year ____ · encounter/note records ____ years · imaging/lab volumes per year ____ · billing records ____ years

13. Approximate payer mix (%): Medicare ____ · Medicaid ____ · Commercial ____ · Workers comp ____ · Auto/PI ____ · Cash ____

14. Service lines beyond core specialty (list):

D. Workflows & documentation

15. Do written SOPs exist for: [ ] intake [ ] check-in/out [ ] documentation [ ] billing/coding [ ] referrals [ ] staff training

16. Languages used with patients and in documentation (list all — note any bilingual documentation):

17. Approximate number of staff trained on the same standard workflows across locations:

E. Scope & exclusions

18. Any data categories you would exclude (describe categories only):

19. Any existing agreements restricting licensing of your operational data? [ ] No [ ] Yes (describe):

20. Willing to sign an exclusive data licensing grant to IEC MSO for evaluation? [ ] Yes [ ] Not yet — questions first

Return: reply by email with the answers (in the email body is fine). Questions: Mohammed Morgan, MD — 857-867-1767.

IEC, Inc. — licensing only, never a sale. Your data stays in your systems; anything shared with a buyer is de-identified first, under agreement.
