Data Evaluation Questionnaire — Pharmacy Operations

IEC, Inc. · IEC MSO Data Network — for Dr. Mohamed El-Sayed

Purpose: buyers price operational data from counts and descriptions only — volumes, history, systems, and workflows. Please do not send any patient information, prescription records, or personal data of any kind. Every answer below is a number, a date range, a system name, or a yes/no.

About data licensing — and what your data is worth

What "licensing your data" means. AI companies train their systems on real-world operational data — how work actually gets done: volumes, workflows, scheduling, documentation, billing patterns. They pay for the *right to use* that data. A license is not a sale: you keep full ownership, the license covers defined uses for a defined time, and the same data can be licensed to more than one buyer — so value can be earned repeatedly, not once.

Why your data has value. Buyers cannot manufacture this data — it only exists inside operating businesses like yours. Three things drive the price: volume (how many records/transactions your operation produces), history (how many years are stored in your systems), and standardization (the same workflows repeated across locations — multi-site operators on shared systems are exactly what buyers look for, because consistent data trains better models).

What it pays. The buyer program IEC is engaged with pays $100K–$2M per approved partnership, with the exact figure set by the buyer's evaluation of the counts in this questionnaire. Larger, longer-history, multi-location operations price at the top of the range. Your share of any license IEC closes on your data is 75% of the license value, paid when the buyer pays.

How the process works. (1) You answer this questionnaire — counts only. (2) You sign IEC's exclusive data licensing grant, which makes IEC your sole counterparty to buyers (no brokers, no marketplaces). (3) Buyers evaluate the counts and quote. (4) Any data that ever moves is de-identified first, inside your own systems, under expert certification — no names, no patient or customer identities. (5) You see the terms before anything is final, and nothing is licensed without the agreement you signed.

What we never ask for. This questionnaire asks for numbers, date ranges, and system names only — never patient records, customer lists, or personal information of any kind.

A. The business

1. Legal entities and store names covered by this questionnaire (list each):
2. Store locations (city/state only):
3. Year each store opened:
4. Total employees (full-time / part-time):
5. Who is the decision-maker for a data licensing agreement? Name + title:

B. Systems

6. Pharmacy management / dispensing system at each store (name + version if known — e.g., PrimeRx, QS1, Enterprise, RxConnect):
7. Other systems in daily use (check all that apply): ☐ Microsoft 365 ☐ Google Workspace ☐

QuickBooks/accounting (name: ____) ☐ Point of sale (name: ____) ☐ IVR/phone (name: ____) ☐ Delivery routing (name: ____) ☐ Other: ____

8. Are all stores on the same dispensing system? ☐ Yes ☐ No (which differ):

C. Volume & history (per store or combined — counts only)

9. Average prescriptions filled per day (all stores):
10. Total prescriptions filled per year (last full year):
11. How many years of dispensing history are stored in the system? From year: ____
12. Years of history available for: inventory records ____ · billing/payer records ____ · delivery logs ____
13. Number of active patient profiles in the system (count only):
14. Approximate payer mix (%): Medicare ____ · Medicaid ____ · Commercial ____ · Cash ____
15. Specialty / compounding / LTC / DME lines, if any (describe briefly):

D. Workflows & documentation

16. Do written SOPs exist for: ☐ dispensing ☐ inventory ☐ billing ☐ delivery ☐ staff training
17. Languages used with patients and in documentation (e.g., English, Spanish, Arabic — list all):
18. Approximate number of staff trained on the same standard workflows across stores:

E. Scope & exclusions

19. Any data you would exclude from licensing (describe categories only):
20. Any existing agreements that restrict licensing your operational data? ☐ No ☐ Yes (describe):
21. Are you willing to sign an exclusive data licensing grant to IEC MSO for evaluation? ☐ Yes ☐ Not yet — questions first

Return: reply by email with the answers (in the email body is fine). Questions: Mohammed Morgan, MD — 857-867-1767.

IEC, Inc. — licensing only, never a sale. Your data stays in your systems; anything shared with a buyer is de-identified first, under agreement.
